

### Replacement Policy:

If the TSA cuts a lock, their stated policy is to wrap it in special protective tape and place it in your suitcase along with a Notification of Baggage Inspection form.

In the unlikely event that your Travel Sentry Certified lock is mistakenly cut or damaged by the TSA, Voltage Valet will provide a replacement lock. See replacement requirements below:

To obtain your replacement lock, send the following to Voltage Valet within 30 days of your flight:

- The cut lock with special protective tape
- The Notification of Baggage Inspection
- The airline, flight number and date of flight
- The name of the airport where your baggage was screened (your origin airport or where your baggage was checked-in)

**NOTE:** If you believe that this was NOT done by the TSA then you should file a claim with your airline as soon as possible.
